

HFT-18B is a high performance subwoofer designed for ground stacked and vertical flown arrays applications. 18" NdFeB driver unit (鈹鐵硼驅動單元) with 100mm voice coil built into a bass-reflex design.

The HFT-18B subwoofer designed for Multi-Function Hanging System, Easy Installation, Ultra Low Distortion, High Power Output. The cabinet is constructed from 18mm with 11 Layers Birch plywood with impact resistant paint finish.

Specifications

Frequency Response (-10dB) :	32Hz-150Hz
Rated Power :	700W AES,2800W Peak
Sensitivity 1m/1w :	99dB
Maximum SPL :	137dB
Component :	1X18" (100MM Voice Coil,High efficient heat-resistant and water-proof ferrite magnet driver)
Nominal Impedance :	8 Ohm
Connectors :	2x Neutrik NL4 Speakon
Enclosure :	18mm 11 layers Birch Plywood with Black textured paints finishing
Weight(Kg) :	28Kg
Dimensions mm (HxWxD) :	565mm x 738mm x 710mm
Waterproof :	IPX6 grade certification
Installations hardware :	Touring & Fixed installation hardware available
Hanging :	Refer to rigging Manual of HFT Series
